Product highlights

Neodymium magnet
Neodymium is the best material for producing a strong magnetic field for greater sensitivity in a voice coil, better bass response and higher overall sound quality.

Twin vents
Specially designed vents that channel the air balance the high tones and bass for a more rounded listening experience.

15 mm speaker driver
Small enough for optimum wearing comfort and big enough to deliver crisp, non-distorted sound, the 15 mm speaker driver is an ideal size for listening enjoyment.

Comfort ear cushions
The special shape and luxurious materials used for the ear cushions ensure a perfect fit for maximum comfort. They prevent audio leakage and enhance bass performance too. The ear cushions are shaped in such a way that they perfectly align with the area around a person's ear.

Split cable
This standard cable has a 3.5mm socket on one end and a 3.5mm plug on the other for extending your freedom of movement with headphones.

Flexi-Grip design
A soft, flexible part protects the cable connection from damage that otherwise would occur due to repeated bending.
